QUT Spatial Science Students Celebrate Awards

The Queensland University of Technology, Faculty of Built Environment and Engineering Student Prize Ceremony were recently held at The Gardens Theatre - QUT Cultural Precinct.

Without the generous support of our sponsors, we would not be able to offer awards that encourage and reward the excellent academic achievements of our students. The Faculty gratefully acknowledges this support and is dedicated to recognising its sponsors at the 2008 Student Awards Ceremony.

Scholarships, bursaries and prizes have a number of benefits for both sponsors and students. They provide industry sponsors with the opportunity to be recognised within the University community and offer potential collaboration between industry and QUT through student projects. For students, the awards provide financial relief and in some cases enable students to complete valuable work experience with the sponsoring company.

Awards relating to Spatial Sciences (Surveying) were presented as follows:
